📞 050-420-1355   *GitHub*

React Native developer with almost 2 years of experience.
Software Engineering (BSc) Student with one semester left.

Experience

● **React Native Developer, Sellme**   *2022-present*

- Developed cross-platform mobile applications using React Native, Redux, and Redux-Saga for efficient state management and enhanced user experiences.
- Collaborated closely with the development team to design and implement various features, ensuring high performance and seamless functionality within the applications.
- Developed server-side applications, RESTful APIs, and data models using Nest.js in collaboration with the backend team.
- Utilized MongoDB and SQL databases for efficient data storage and retrieval, implementing advanced query techniques and indexing strategies for optimized performance.
- Actively participated in code reviews, providing valuable insights and suggestions for improved code quality, performance, and adherence to best practices on both the client and server sides.

Project

● **HERE - React Native app**

- Developed a React Native application with a server implemented in Express.js and MongoDB.
- Designed and built the app specifically to assist individuals with ADHD in task and time organization.
- Utilized Reanimated, TypeScript, Redux, and RTK Query to enhance the app's functionality and user experience.
- Collaborated closely with a UI/UX designer to ensure a seamless and visually appealing interface.

GIT   ⊙ *Demo*   *Store*

Education

● **Shamoon College of Engineering - SCE**   *2019-2024*

- Bachelor of Science, Software Engineering
- GPA: 85

Skills

- React & React Native
- Node js, Express.js and Nest.js
- SQL
- Mongo DB
- Typescript & Javascript
- HTML & CSS

- Redux, Redux-saga, RTK
- Git
- Trello
- Figma
- Team player
- Problem-solving

Military service

● **Military service as a combat soldier in a paratrooper's brigade**   *2013-2016*
